Neighborhood Traffic Calming Application

Neighborhood Traffic Calming is a process initiated by registered neighborhood associations that seeks to address problems that result from unacceptable neighborhood traffic patterns. This process solves neighborhood traffic problems through the use of devices (see attachment for samples of traffic calming devices) that reduce traffic volume and speed in neighborhoods while maintaining maximum mobility and access.

Name of Registered Neighborhood Association: _____

If no registered neighborhood association exists in your area, individuals may apply through this application. Contact the office of City Planner at (601) 960-2075 for more information concerning registered neighborhood associations.
